

Vivekananda Rock Memorial & Vivekananda Kendra

George Washington Carver was an American botanist and inventor. He became well-known to the public due to his active promotion of alternative crops to cotton and methods to prevent soil depletion.

While a professor at Tuskegee Institute, Carver developed techniques to improve soils depleted by repeated plantings of cotton. He wanted poor farmers to grow alternative crops, such as peanuts and sweet potatoes, as a source of their own food and to improve their quality of life. Apart from his work to improve the lives of farmers, Carver was also a leader in promoting environmentalism. Time magazine dubbed Carver a "Black Leonardo". In this issue we have given a few of his quotable quotes.

Shri.N.Krishnamoorthy covers the topic of 'End Angered' by way of the usual dialogue between Srimati Annapurna Duval, Shri Krish Phidal and Professor Jnani Noval. In happenings section, we have covered training programmes in Terrace gardening, Growth hormones and Bio-pest repellents, National level Siddha Varma conference, Bio-gas technology and Networking etc.

In the wisdom section, Wolfgang Sachs, Researcher, Writer & University teacher in Germany tells us that the real Art of living is leaving the possessions, Satish Kumar, Editor of Resurgence beautifully describes the Web of life and finally the World famous Kahlil Gibran, Lebanese writer, poet, and visual artist guides us in Art of giving.
