How true is the saying! Only those who have treaded the same path will understand the true meaning of these words. Since its inception, Vivekananda Kendra Kanyakumari has literally lived this saying. All its projects are designed and oriented towards the upliftment of the underprivileged with the active participation of the community. It is the community which understands the problems they face better than any outsider, so the community must come together to actively participate in the mitigation of the same.

In ninety cases out of a hundred, fanatics must have bad livers, or they are dyspeptics, or are in some way diseased. By degrees even physicians will find out that fanaticism is a kind of disease.
